The game named above is hereby granted a Certification of Permissibility for operation in New Jersey pursuant to the provisions of the Amusement Games Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This Certification of Permissibility is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the Law and Regulations, the specifications submitted by the applicant and the conditions set forth in this certification. Any modification of the specifications as submitted at the time of application or the conditions set forth herein shall immediately void the Certification of Permissibility for any game so operated.

It is unlawful to license or operate any amusement game in the State of New Jersey without a valid Certification of Permissibility or in a manner not in accordance with Certification of Permissibility issued for the game. This Certification of Permissibility contains four pages. This is page 1 of 4.

## **DESCRIPTION:**

“Squeeze Play” is a competitive game consisting of 6, 8, 10, 12, and 14 player positions. Players compete against each other by using a joystick which is located in front of them. The joystick moves forward or back, this allows the player to move the green 4-line LED square on the vertical play field. There is red LED keep-out zone located at each end of the vertical panel which makes up the play field. The green LED square begins in the middle of the vertical play field with the red keep-out zone moving up and down in a random fashion. The player uses the joystick to avoid the red keep-out areas. As the game progresses, the red keep-out zone grows and covers more and more of the play field. When the a player’s green LED block hits the red keep-out zone that player’s game is over. When there is one player remaining, the game is over and that player is awarded a prize.

## **DEFINITIONS:**

“Game board” means the green 4-line LED square which moves on a vertical panel.

“Obstructions” means any portion of the stand/structure, any light or other type fixture, any box, bag, prize or other material.

“Play field” means an area within the stand/structure between where the player sits and one foot behind the joystick which moves the green 4-line LED square.

“Prize Category” means a prize, or group of prizes of comparable value, available to a player upon completion of the task necessary to win a prize in a particular category or available to a player by “trade up.”

“Prize category designation” means the identifier of one of the six authorized prize categories prescribed by condition 10 of this Certification of Permissibility.

“Professional quality” means that the surface of the sign to be used must be smooth and rigid in nature and not made from paper or corrugated cardboard, unless laminated.

“Round of play” means the sale of a right to participate, the event which determines whether the player wins or loses, and the award of the prize.

“Stand/structure” means any stand, structure, booth, tent, trailer or area in which the game is operated including but, not limited to any seat or stool offered for use or used by a player during game play.

“Trade up” means trading multiple prizes of a lower prize category for a prize in a higher prize category.
